DOS, DON'TS & MUST KNOWS

This section is the main summary. It will tell you the main points that get you in the direction the book wants you to go.

1. **The book wants to teach you to understand the spiritual laws that govern life and how to work with those laws to have a good fulfilling life.**
2. Life is not a battle, but rather, it is a game. A game guided by spiritual laws. **(Page summary 4)**
3. Our heart and imagination(mind) shapes our reality so train it with positivity to lead to a successful life filled with health, wealth, love, and fulfillment of our highest ideals. See what you want and never lose the vision even in apparent failure because seeing it and following spiritual law through Jesus Christ will lead to you getting it. **(Page summary 5, 13)**
4. The mind is in three parts namely the subconscious, conscious, and superconscious and you need to understand them to use them. The subconscious acts as a canvas for vivid thoughts. The conscious mind influences the subconscious. The superconscious holds perfect destinies **(Page summary 5)**
5. Your destiny is a perfect self-expression, filling a unique role in life and to manifest this, you must recognize the perfect idea in the Divine Mind (God or Infinite Intelligence). When you want something, use spiritual law to attract the right thing rather than insisting on what you solely want. Infinite Intelligence (God) fulfills man's desires when wished without doubt or fear and the supply is inexhaustible and unfailing. Focus on the good and eliminate thoughts of evil. "Ask right" by demanding only what is rightfully yours by divine right and letting go of your personal will. **(Page summary 6, 8, 10, 31, 34, 53-54, 55, 56)**
6. Words and thoughts have great power. You create your own laws with your spoken words, attracting success or failure. Do not joke about yourself being in poverty whether it's talking or thinking about it as a joke. Your subconscious mind picks that up and leads you to it. **(Page summary 7, 16, 18)**
7. The subconscious mind silently records every thought and word like a photographic plate. To improve life, replace old negative records in your mind with new positive ones using positive words of conviction. For example: The following has brought success to many: "I have a wonderful work, in a wonderful way, I give wonderful service, for wonderful pay!". Act as if you've received what you asked for without a doubt in mind. That creates an impression on the subconscious mind and leads you to what you want. You get what you prepared for so DO NOT PREPARE FOR FAILURE. **(Page summary 9, 11, 12, 27-28,)**
8. Stay close to people who believe you can get what you seek and actually envision you getting it because it can help you get it and vice versa. **(Page summary 14)**
9. The power of lucky objects comes from the feeling of expectancy they create but they do not hold power themselves but rather, it is God's power that brings the good things. **(Page summary 17)**
10. Facing situations fearlessly makes them disappear so be courageous. Resisting a situation will only bring it close and make it worse. Do not worry about the past or future but embrace the present. Cast your burden on the superconscious mind (or Christ within) by believing God has taken care of it. **(Page summary 18, 25, 36, 37)**
11. Sickness or suffering comes from violating the spiritual law of love. Be Forgiving and have mental harmony so that it brings goodness your way. Bless your enemies because

that takes away any power they have over you and do not pursue selfish happiness as it triggers the law of Karma in your life. **(Page summary 20-21, 22, 24, 44)**

12. Do not believe in Evil and do not resist evil as there is only one power, God. Evil is a false law created by man's belief in duality. Realizing the insignificance of evil brings release, leading to the manifestation of the fourth dimensional "World of the Wondrous." **(Page summary 22, 40)**
13. The law of Karma works faster if you have high consciousness and Knowing spiritual laws without practicing them can lead to suffering. If you practice spiritual law, you are less burdened and you bring goodness into your life. **(Page summary 29, 30)**
14. Your actions are motivated by fear or faith. Choose faith. **(Page summary 40)**
15. Know, give, and experience true love as it is God in manifestation. Real love is selfless, unconditional, free from fear, and joy of giving without expecting anything in return. **(Page summary 41, 42)**
16. Despising money and holding contempt for those who have it keeps people in poverty. Hoarding and saving money leads to negative consequences as it violates the law of use however, circulating and using money rightly attracts more. **(Page summary 44)**
17. Remorse for past unkindness can be neutralized by performing present acts of kindness. Holding onto sorrow, regret, and remorse affects the body's cells and poisons the individual's atmosphere. People are sometimes filled with remorse for having done someone an unkindness, perhaps years ago. If the wrong cannot be righted, its effect can be neutralized by doing someone a kindness in the present. Treating grief and sorrow with affirmative statements of Truth can bring about joy and healing. **(Page summary 46)**
18. Follow your intuitions because it points the way toward positive actions and decisions. Forcing things through reasoning can hinder progress, so trusting intuition and waiting patiently for leads is vital. **(Page summary 50, 66)**
19. Do not condemn others because you will attract such a situation to yourself where you will also be condemned. **(Page summary 51)**
20. To neutralize a prophecy of evil, a strong mind is required. One should declare the dissolution of any false prophecy and affirm the manifestation of the divine idea. If a positive prophecy of happiness or wealth has been received, hold onto it with faith and expectancy, allowing it to manifest through the universal will. **(Page summary 52)**
21. Finish what you start because that symbolizes completion in the subconscious mind, facilitates successful things in your life. **(Page summary 59)**
22. Receive things well to maintain the balance of giving and receiving. Be a good receiver and accept gifts with gratitude, opening up channels for abundance. God creates His own channels, and man must be willing to receive freely to maintain harmony. Enlarge your expectations to receive abundance on a larger scale. Do not limit your demands and know that manifesting abundance requires active faith and directing the subconscious mind to what you want to manifest. **(Page summary 60, 63, 64)**
23. Loss can occur due to depreciation or fear of loss. To have instant manifestations, one must let go of the problem and put it in God's hands. Denials must be followed by affirmations to redirect the subconscious mind. Instantaneous healing can occur when

one denies the appearance of disease and affirms the perfect idea in the Divine Mind.

(Page summary 65)

24. The power of the name Jesus Christ elevates the one to the fourth dimension, freeing them from astral and psychic influences. Healings have been witnessed by using the words "In the name of Jesus Christ." Christ represents both a person and a principle. The Christ within each individual is their unconditioned and absolute self, the image of God. Man can manifest the Trinity of Father, Son, and Holy Ghost daily. The key to success is fearless faith, nonresistance, and love. By mastering the art of thinking, man can bring heaven into his life, fulfilling his divine destiny.
25. Here is a series of affirmations for prosperity, right conditions, faith, health, eyesight, guidance, hearing, right work, and freedom from bondage. The power of affirmations lies in acknowledging the divine connection and oneness with God. By affirming God's unlimited supply, dissolving wrong conditions, and embracing divine love and guidance, individuals can manifest their desired realities and fulfill their divine destinies. These affirmations are:
 - **(For Prosperity)** God is my unfailing supply, and large sums of money come to me quickly, under grace, in perfect ways.
 - **(For Right Conditions)** Every plan my Father in heaven has not planned, shall be dissolved and dissipated, and the Divine Idea now comes to pass.
 - **(For Right Conditions)** Only that which is true of God is true of me, for I and the Father are ONE.
 - **(For Faith)** As I am one with God, I am one with my good, for God is both the Giver and the Gift. I cannot separate the Giver from the gift.
 - **(For Right Conditions)** Divine Love now dissolves and dissipates every wrong condition in my mind, body and affairs. Divine Love is the most powerful chemical in the universe, and dissolves everything which is not of itself!
 - **(For Health)** Divine Love floods my consciousness with health, and every cell in my body is filled with light.
 - **(For the Eyesight)** My eyes are God's eyes, I see with the eyes of spirit. I see clearly the open way; there are no obstacles on my pathway. I see clearly the perfect plan.
 - **(For Guidance)** I am divinely sensitive to my intuitive leads, and give instant obedience to Thy will.
 - **(For the Hearing)** My ears are God's ears, I hear with the ears of spirit. I am nonresistant and am willing to be led. I hear glad tidings of great joy.
 - **(For Right Work)** I have a perfect work In a perfect way; I give a perfect service For perfect pay.
 - **(For Freedom from all Bondage)** I cast this burden on the Christ within, and I go free!

Page 4

Life is a game guided by spiritual laws, not a battle. Giving and Receiving is a key principle from the Old and New Testaments. What we put out comes back to us. The imaging faculty, represented by the heart and imagination, shapes our reality. Training it with positivity leads to a successful life filled with health, wealth, love, and fulfillment of our highest ideals.

Page 5

Imagination shapes reality. Understanding the three mind departments—subconscious, conscious, and superconscious—helps train imagination effectively. The subconscious acts as a canvas for vivid thoughts. The conscious mind influences the subconscious. The superconscious holds perfect destinies. Ignoring one's true destiny leads to pursuing wrong goals, resulting in failure and dissatisfaction.

Page 6

A woman sought help to marry a specific man (A. B.) but was advised to use spiritual law to attract the right partner. She realized that if A. B. was meant to be, she wouldn't lose him; otherwise, she'd find an even better match. Soon, another man entered her life, fulfilling all her desires. This law of substitution showed no loss or sacrifice. Jesus Christ taught us to seek the Kingdom of God within, where divine ideas reside. Words are vital in shaping life, and negative ones can lead to disaster.

Page 7

Words and thoughts have great power. Constantly joking about poverty led one woman to almost become destitute, revealing the impact of subconscious impressions. On the other hand, another woman with just eight dollars sought prosperity treatment, affirmed abundance, and followed her intuition, leading to unexpected wealth. Jesus Christ emphasized the importance of taking initiative, asking, seeking, and knocking to manifest desires.

Page 8

Infinite Intelligence fulfills man's desires when wished without doubt or fear. Eradicating fear and having faith is crucial. Focus on the good and eliminate thoughts of evil. Impressing the subconscious with positivity is vital. Methods for achieving this will be explained in the next chapter.

Page 9

The subconscious mind silently records every thought and word like a photographic plate. To improve life, replace old negative records with new positive ones. Speaking empowering words can create new records of health, wealth, love, and self-expression. Recognizing the power of

words allows effective change of conditions. Speak these words aloud, with power and conviction: "I now smash and demolish (by my spoken word) every untrue record in my subconscious mind. They shall return to the dust-heap of their native nothingness, for they came from my own vain imaginings. I now make my perfect records through the Christ within—The records of Health, Wealth, Love and perfect self-Expression."

Page 10

Scriptures convey that God is man's supply, accessed through spoken words with unwavering faith. Words and thoughts have a powerful force in shaping life and circumstances. A distressed woman faced a lawsuit but was reminded to trust God as her supply. Emphasizing perfect faith and acting as if the supply is already received, she aimed to manifest abundance by Monday.

Page 11

Biblical teachings emphasize the power of prayer and belief. Acting as if desires are already received is crucial. A woman in a financial crisis demonstrated unwavering faith and received help from her cousin. Preparing for failure while asking for success yields the prepared outcome. Avoiding negative thoughts with positive words is important. The story of the three kings shows the importance of focusing on the desired outcome to manifest miracles.

Page 12

Preparation is vital when asking for something, even without visible signs. A woman seeking an apartment amid a housing shortage acted with unwavering faith and received new blankets for her apartment despite fierce competition. The story of the three kings emphasizes the importance of preparation. Overcoming doubt and fear in the subconscious is necessary to manifest desires. Affirming truth and rejoicing in anticipation of the received gift lead to successful demonstrations.

Page 13

Envisioning our desires is essential for receiving them. Holding onto the vision and following spiritual laws lead to great accomplishments. Even in apparent failure and discouragement, maintaining the vision is crucial. The examples of the children of Israel and Jesus Christ demonstrate the power of unwavering vision. Spiritual understanding helps us stay undisturbed by appearances and rejoice in challenging times. Holding the vision of already-received manifestations brings them into reality through the superconscious mind.

Page 14

A man faced a financial challenge, seeking fifty thousand dollars. Despite doubts and time constraints, he trusted God's possibilities. With unwavering faith and support in holding the vision, he secured the loan at the last moment. Jesus Christ's teaching exemplifies the power of agreement and vision. Having someone else hold the vision for success, health, or prosperity

can be more effective during doubts. Observers' belief in one's success significantly contributes to achieving it, showing the power of the vision in manifestation.

Page 16

Understanding the power of words makes one cautious in conversations. Words have a profound impact and bring results. People create their own laws with spoken words, attracting success or failure. Superstitions like horseshoes or rabbit's feet rely on belief in luck and influence the subconscious. However, spiritual growth requires letting go of such superstitions and trusting in higher laws. Business success declined due to reliance on lucky charms instead of affirmations and trust in God's law. The power of forgiveness can neutralize mistakes and restore harmony.

Page 17

The power of lucky objects comes from the feeling of expectancy they create. While recognizing God's ultimate power, one doesn't need to discard such items but understand their true significance. A woman found hope in a horseshoe, attributing it to God's intervention, leading to positive change and success. Overcoming beliefs tied to disappointment requires asserting God's power and expecting happy surprises. Facing fears like walking under a ladder shows there's no opposing power to God, liberating from superstitions and bondage.

Page 18

The law of nonresistance and fearlessness holds great power but is often misunderstood. Courage contains genius and magic, as facing situations fearlessly makes them disappear. Words' vibratory power attracts corresponding outcomes, so be cautious with speech. Talking about disease or negativity attracts them to life. Wise language usage involves healing, blessing, and prospering others, benefiting oneself. The body transforms with a clear vision and positive words since all diseases have mental roots, and healing the subconscious mind is vital for overall well-being.

Page 19

The twenty-third psalm speaks of restoring the subconscious mind with the right ideas, achieving the "mystical marriage" of subconscious and superconscious minds. When flooded with perfect ideas, man becomes one with God, possessing power over all things. Sickness and unhappiness stem from violating the law of love, while love and goodwill bring success. Every disease is caused by a mind not at ease. A woman's healing from a skin disease exemplifies the power of love and forgiveness in overcoming illnesses caused by negative thoughts.

Page 20-21

Unforgiveness is a major cause of disease, affecting physical health. Mental inharmony manifests externally. Man's foes are within himself, and overcoming personality challenges is crucial. By sending goodwill and blessings to others, one neutralizes enemies within and experiences protection and peace.

Page 22

Nonresistance is a powerful principle. Water is nonresistant and can wear away rock. Jesus advised us not to resist evil as there is only one power, God. Evil is a false law created by man's belief in duality. Soul sleep refers to being hypnotized by the race's belief in sin, sickness, and death, leading to the out-picturing of illusions in life and affairs. The sick man has pictured sickness, the poor man, poverty, the rich man, wealth.

Page 23

A metaphysician emphasizes the importance of running one's own subconscious mind, not allowing others to control it. Mothers' fears can attract illness to their children. Being centered on right thinking and goodwill protects one from negative thoughts. Nonresistance is a powerful tool to transmute failures into successes. A woman transformed her financial situation by blessing a challenging man and baptizing the situation as "Success."

Page 24

Every person is a golden link in the chain of one's good. Blessing enemies robs them of their power to harm. Nonresistance, when used wisely, doesn't make one a doormat; rather, it allows the flow of divine ideas without conflict. An example illustrates how anxiety and fear can hinder desired outcomes while embracing nonresistance brings success.

Page 25

Resistance and running away from situations perpetuate them. Agreeing with adverse situations as good and remaining undisturbed makes them fade away. The cause of inharmonious situations lies within oneself, and changing oneself leads to changes in others. Living in the past and failing to embrace the present moment violate spiritual law.

Page 26

Looking back at the past or worrying about the future hinders progress. Bless the past and forget it if it holds you in bondage. Embrace the present moment, live fully in the now, and have faith in the future. Take action in the present, be spiritually alert, and seize opportunities. Begin each day with affirmations to set a positive tone.

Page 27-28

Adopt the habit of looking with wonder at life, and miracles will manifest. Personal affirmations can be powerful tools for success, but they must resonate with one's own consciousness. Examples of effective affirmations include expressing gratitude. For example: The following has brought success to many: "I have a wonderful work, in a wonderful way, I give wonderful service, for wonderful pay!" By breaking down barriers of lack of consciousness, man can tap into his divine right to abundance and fulfill his heart's desires.

Page 29

The Law of Karma, or "Comeback," governs the principle of receiving what one gives in thoughts, deeds, and words. Man's actions, whether positive or negative, return to him with accuracy. Knowing spiritual laws without practicing them can lead to suffering and being high in consciousness makes your Karma return much more quickly than one on the mental plane. Understanding the fear of the Lord as the fear of the law can provide clarity in interpreting certain biblical passages. Vengeance is the action of the law, not God, who sees man as perfect and endowed with power and dominion.

Page 30

Man's perfect idea lies in the Divine Mind, awaiting his recognition. He can only achieve what he sees himself becoming. Our thoughts and imagination influence the outcomes of our lives. Knowledge of Spiritual Law brings freedom from unhappy conditions. Obedience to the law allows man to harness its power for good. Desire is a potent force, and when directed wisely, it leads to harmonious outcomes. Following the divine pattern ensures satisfactory results and brings good to all. When you want something, say "Infinite Intelligence, give me the right house, equally as charming as this, the house which is mine by divine right."

Page 31

The first step in a successful demonstration is to "ask right" by demanding only what is rightfully yours by divine right. Forcing manifestations through personal will leads to negative outcomes. Surrendering personal will to Infinite Intelligence allows desires to be fulfilled. Standing still and letting go of fear and resistance opens the way for divine plans to unfold. Sowing and reaping are evident in life, and what is sown through thoughts and actions will return accordingly.

Page 32

The law of forgiveness is essential in understanding the principle of sowing and reaping. Analyzing situations and recognizing one's own thoughts and actions that attract certain outcomes is crucial. Christianity is built on the foundation of forgiveness, and man's Christ within is the key to redemption from negative karmic laws. Knowledge of the Law empowers man to correct mistakes and manifest desired outcomes. To achieve prosperity, one must embody qualities of abundance and orderliness.

Page 33

Gifts and things are investments that can lead to prosperity when given or spent fearlessly and wisely. Hoarding and saving out of fear of scarcity can result in loss. The law of abundance operates when one follows intuitive leadings to spend or give. A man's intuition led him to buy an expensive fur-lined overcoat, which later brought him a substantial commission. Ignoring these intuitive impulses may result in money flowing away in uninteresting or unfortunate ways. Recognizing God as the supply and spending fearlessly aligns one with abundance.

Page 34

Man's supply is inexhaustible and unfailing when fully trusted with faith and trust preceding the demonstration. Faith holds the vision steady, dissolving adverse pictures, and leading to the fulfillment of desires. Jesus Christ brought the good news of a higher law than Karma—the law of grace and forgiveness, freeing man from the law of cause and effect. On this plane, man reaps where he has not sown, receiving gifts from God. Overcoming the world's thoughts of sin, sickness, and death leads to a state of bliss and eternal life.

Page 35

When a man understands his powers and the workings of his mind, he seeks an easy way to impress the subconscious with good. "Casting the burden" is the key. Jesus Christ's teachings highlight the lightness of burdens when connected to the superconscious mind, functioning in the fourth-dimensional realm of perfection, completion, life, and joy. Casting burdens upon the Lord signifies allowing the superconscious mind to handle life's battles and alleviate man's burdens.

Page 36

Man violates the law of grace and forgiveness when carrying adverse thoughts or conditions. These thoughts are rooted in the subconscious. The conscious mind's limited conceptions make it difficult to direct the subconscious. To dissolve burdens, cast them upon the superconscious mind (or Christ within). By affirming freedom from lack, one attracted abundance. Another cast resentment on the Christ within, experiencing a profound positive transformation. Repetitive, determined statements shift subconscious beliefs.

Page 37

"Casting the burden" is like winding up a victrola with spoken words. Doubts and fear cloud clear vision, attracting negative outcomes. Repeating the affirmation with faith clears vision, brings relief, and manifests good. Before significant breakthroughs, challenges may arise as old subconscious doubts surface. Active faith is crucial to impress the subconscious and bridge the way to desired outcomes.

Page 38

Active faith impresses the subconscious. Using music, dance, or daily affirmations enhances the power of the subconscious. Before a big breakthrough, signs of small progress may appear, which should be seen as positive indicators rather than disappointments. "Making Believe" like children helps impress the subconscious and leads to the realization of desires.

Page 39

A woman's unwavering focus on opulence and abundance, despite her impoverished circumstances, led her to marry a rich man and manifest her desires. Fear must be eradicated from the subconscious to find peace and happiness. Confronting fears directly and fearlessly redirects the misdirected energy into faith, enabling a bountiful supply and the subconscious is impressed with the truth that God is the Giver and the Gift; therefore as one is one with the Giver, he is one with the Gift.

Page 40

Man must choose between fear and faith, monitoring his motives for action. Confronting fears directly, whether of personalities or germs, with fearlessness leads to liberation. Disease-laden germs only affect those who vibrate at their level, and fear drags one down to that level. Realizing the insignificance of evil brings release, leading to the manifestation of the fourth dimensional "World of the Wondrous."

Page 41

Love is a cosmic phenomenon and the initiation for every man on Earth. Real love is selfless, free from fear, and joy of giving without expecting anything in return. It is God in manifestation and the most potent magnetic force. Jealousy and fear hinder true love, leading to loss. Learns to give perfect, unselfish love without demands or resentment.

Page 42

Real love is unconditional and selfless. When we radiate genuine love, it returns to us, either from the same person or its equivalent. By detaching from negative emotions and seeing the divine essence in others, we can find harmony. The story of a woman learning to bless and salute the divinity in a man she loved resulted in a miraculous marriage.

Page 43

Suffering is not necessary for man's development. Suffering arises from violating spiritual laws, and people often remain in a state of "soul sleep" until they awaken through hardships. The desire for happiness can lead to selfishness, triggering the law of Karma. A woman's lack of interest in married life manifested in her husband's departure. A man deemed a "two" in the

Science of Numbers, changed his fate by aligning with divine intelligence, finding success and fulfillment as a writer.

Page 44

Despising money and holding contempt for those who have it keeps people in poverty. Artists' aversion to money often leaves them struggling. Money is God's manifestation of freedom and abundance. Hoarding and saving money leads to negative consequences while circulating and using it rightly attracts more. An example of hoarding causing tragedy is depicted in the film "Greed." Love and proper use of money align with divine supply, while greed and selfishness lead to separation from it.

Page 45

Hoarding possessions without using them violates the "law of use" and leads to self-destruction. Ignorance of spiritual law causes man's own suffering and disease. Love is essential for a harmonious life. Love and goodwill are vital in business, even with difficult individuals, as illustrated by the sculptor's story.

Page 46

Remorse for past unkindness can be neutralized by performing present acts of kindness. Holding onto sorrow, regret, and remorse affects the body's cells and poisons the individual's atmosphere. People are sometimes filled with remorse for having done someone an unkindness, perhaps years ago. If the wrong cannot be righted, its effect can be neutralized by doing someone a kindness in the present. Treating grief and sorrow with affirmative statements of Truth can bring about joy and healing. Mother fear can lead to diseases and accidents in children while trusting in God's protection brings peace of mind.

Page 47

By affirming Truth and perfect love, individuals can protect their loved ones from harm and danger. Believing in God's divine protection and dwelling in the secret place of the highest dispels fear and ensures safety. Love is the fulfillment of the Law and drives out fear, as fear and love cannot coexist harmoniously.

Page 48

Intuition and guidance play a crucial role in achieving success. Acknowledging God's presence and power in all aspects of life empowers individuals to use their spoken word effectively. Choosing the right words and affirmations activates unseen forces to bring desired outcomes. By seeking intuition and waiting for definite leads, one can receive guidance on the necessary actions to manifest their desires. Eg: A woman desired a large sum of money. She spoke the

words: "Infinite Spirit, open the way for my immediate supply, let all that is mine by divine right now reach me, in great avalanches of abundance." Then she added: "Give me a definite lead, let me know if there is anything for me to do."

Page 49

Giving opens the way for receiving. The act of giving with love and cheerfulness activates abundance in one's life. Tithing, or giving one-tenth of one's income, is a powerful practice that has proven successful in attracting wealth. By combining a vision of wealth with fearless action, individuals can manifest their desires and attract the right opportunities.

Page 50

Intuition or guidance plays a significant role in one's life. Following intuitive leads can lead to unexpected but beneficial outcomes. Intuition is a spiritual faculty that may not be easily explained, but it points the way toward positive actions and decisions. Leads received during treatments or through hunches can bring about positive changes in various aspects of life, including health and living arrangements.

Page 51

To achieve permanent healing and happiness, man's soul (subconscious mind) must be purified from condemnation and negative judgments. Condemning others attracts similar situations to oneself. Indecision can hinder progress, but affirming the ability to make the right decisions quickly can overcome it. In order to overcome it, make the statement, repeatedly, "I am always under direct inspiration; I make right decisions, quickly." These words impress the subconscious, and soon one finds himself awake and alert, making his right moves without hesitation. Seeking guidance from the psychic plane is not recommended as it deals with mortal thought and opposites. It's essential to focus on One Mind and rise above the limitations of Karmic paths.

Page 52

To neutralize a prophecy of evil, a strong mind is required. One should declare the dissolution of any false prophecy and affirm the manifestation of the divine idea. If a positive prophecy of happiness or wealth has been received, hold onto it with faith and expectancy, allowing it to manifest through the universal will. Efforts of the will are needed to maintain faith and harmony. External inharmony reflects mental inharmony and forgiveness and positive thinking are essential to overcome challenges. Man's will should be used to back the universal will. "I will that the will of God be done."

Page 53-54

Demonstrate the power of spiritual understanding in overcoming loss and injustice. By denying loss and holding onto the belief in divine supply, you attract unexpected opportunities. there is no loss, and when man takes his spiritual stand, he collects all that is his from this great Reservoir of Good. "I will restore to you the years the locusts have eaten." The locusts are the doubts, fears, resentments and regrets of mortal thinking. These adverse thoughts, alone, rob man; for "No man gives to himself but himself, and no man takes away from himself, but himself." Man is here to prove God and "to bear witness to the truth," and he can only prove God by bringing plenty out of lack, and justice out of injustice. "Prove me now herewith, saith the Lord of hosts, if I will not open you the windows of heaven, and pour out a blessing, that there shall not be room enough to receive it."

Page 55

Man's destiny is perfect self-expression, filling a unique role in life. To manifest this, he must recognize the perfect idea in Divine Mind. By demanding to see the Divine Design and releasing his hidden talents, he can achieve health, wealth, love, and happiness. Embracing the plan may lead to changes, but it will be fulfilling and joyful. One's demand should be: "Infinite Spirit, open the way for the Divine Design of my life to manifest; let the genius within me now be released; let me see clearly the perfect plan."

Page 56

Man is financed by God, and his perfect self-expression will be provided for. Faith in the spoken word and demands for Divine Design can release needed funds quickly. Parents should support children's natural inclinations, and prenatal treatments can set the stage for divine expression.

Page 57

"A man's foes shall be of his own household." The battles in life symbolize man's struggle against mortal thoughts. Fear often hampers genius, but it can be overcome with treatment. One must be cautious not to bury talents and should trust in the "Father within."

Page 58

Acknowledging the presence of God in all aspects of life is crucial. Man must be nonresistant and poised, allowing Infinite Intelligence to work through him. "My way, not your way!" is the command of Infinite Intelligence. Poise is power, leading to clear thinking and the right decisions. Anger, fear, and worry are harmful sins that distort reality and hinder manifestation.

Page 59

Face your fears as it is essential to overcome it and grow, and facing one's fears with faith can lead to unexpected solutions. Completing tasks and projects symbolizes completion in the

subconscious mind, facilitating successful demonstrations. Demand for perfect ideas from the Divine Mind, express gratitude, and actively prepare to receive manifestations.

Page 60

Receiving graciously is essential for maintaining the balance of giving and receiving. Demand to be shown your perfect self-expression when faced with multiple talents by saying: "Infinite Spirit, give me a definite lead, reveal to me my perfect self-expression, show me which talent I am to make use of now.". Be a good receiver and accept gifts with gratitude, opening up channels for abundance. God creates His own channels, and man must be willing to receive freely to maintain harmony.

Page 61

The question of why some are born rich and healthy while others are born poor and sick is explained through the law of reincarnation. Man goes through many births and deaths, drawn back to Earth by unsatisfied desire, karmic debts or to "fulfill his destiny.". Birth and death are man-made laws, and the truth sets man free from the cycle of Karma and death. By fulfilling his destiny, man manifests the Divine Design of his life and gains eternal life. The real man, spiritual man, is birthless and deathless! He never was born and has never died—"As he was in the beginning, he is now, and ever shall be!"

Page 62

The power of decrees and affirmations is emphasized. All good already exists in the divine mind and can be manifested through man's recognition and spoken word. Correctly worded demands are crucial to avoid unintended outcomes. For example when asking for money say: "Infinite Spirit, open the way for my right home, my right friend, my right position. I give thanks that it now manifests under grace in a perfect way." It is essential to ask for "divine selection" and specify that manifestations occur under grace in a perfect way. Growing in financial consciousness allows for greater releases of abundance.

Page 63

Man must enlarge his expectations to receive abundance on a larger scale. Limiting demands can restrict the flow of wealth. Wealth is a matter of consciousness, illustrated by a legend of a man who became rich by believing he had a gold nugget. Continually affirming establishes the belief in the subconscious. Continual rejoicing and gratitude open the way for manifestation. Prayer is a combination of command, demand, praise, and thanksgiving.

Page 64

Manifesting abundance requires active faith and directing the subconscious mind to what you want to manifest.

Page 65

Desires are fulfilled according to one's attitude and subconscious beliefs. Impatient desires lead to violent or delayed manifestations. Loss can occur due to depreciation or fear of loss. To have instant manifestations, one must let go of the problem and put it in God's hands. Denials must be followed by affirmations to redirect the subconscious mind. Instantaneous healing can occur when one denies the appearance of disease and affirms the perfect idea in the Divine Mind.

Page 66

The author shares examples of instant healings and manifestations, emphasizing the difference between visualizing (conscious mind) and visioning (intuition or superconscious mind). Aligning with God's plan requires desiring what God wants. Forcing demonstrations through reasoning can hinder progress, so trusting intuition and waiting patiently for leads is vital. An incident with a student finding a hundred-dollar bill after a spoken word treatment is recounted. The power of Jesus Christ's name is highlighted as a symbol of Truth Made Manifest.

Page 67

The power of the name Jesus Christ elevates the student to the fourth dimension, freeing them from astral and psychic influences. Healings have been witnessed by using the words "In the name of Jesus Christ." Christ represents both a person and a principle. The Christ within each individual is their unconditioned and absolute self, the image of God. Man can manifest the Trinity of Father, Son, and Holy Ghost daily. The key to success is fearless faith, nonresistance, and love. By mastering the art of thinking, man can bring heaven into his life, fulfilling his divine destiny.

Page 68-69

This Page provides a series of affirmations for prosperity, right conditions, faith, health, eyesight, guidance, hearing, right work, and freedom from bondage. The power of affirmations lies in acknowledging the divine connection and oneness with God. By affirming God's unlimited supply, dissolving wrong conditions, and embracing divine love and guidance, individuals can manifest their desired realities and fulfill their divine destinies. These affirmations are;

- **(For Prosperity)** God is my unfailing supply, and large sums of money come to me quickly, under grace, in perfect ways.
- **(For Right Conditions)** Every plan my Father in heaven has not planned, shall be dissolved and dissipated, and the Divine Idea now comes to pass.

- **(For Right Conditions)** Only that which is true of God is true of me, for I and the Father are ONE.
- **(For Faith)** As I am one with God, I am one with my good, for God is both the Giver and the Gift. I cannot separate the Giver from the gift.
- **(For Right Conditions)** Divine Love now dissolves and dissipates every wrong condition in my mind, body and affairs. Divine Love is the most powerful chemical in the universe, and dissolves everything which is not of itself!
- **(For Health)** Divine Love floods my consciousness with health, and every cell in my body is filled with light.
- **(For the Eyesight)** My eyes are God's eyes, I see with the eyes of spirit. I see clearly the open way; there are no obstacles on my pathway. I see clearly the perfect plan.
- **(For Guidance)** I am divinely sensitive to my intuitive leads, and give instant obedience to Thy will.
- **(For the Hearing)** My ears are God's ears, I hear with the ears of spirit. I am nonresistant and am willing to be led. I hear glad tidings of great joy.
- **(For Right Work)** I have a perfect work In a perfect way; I give a perfect service For perfect pay.
- **(For Freedom from all Bondage)** I cast this burden on the Christ within, and I go free!
